

Walker Street Rod Radiators

Walker Radiators

Made for pressurized systems. Fill neck (inside hood) accepts modern type pressure caps. A dummy filler neck designed to accept a stock radiator cap is installed on 1917-31 Ford radiators.

Standard Outlet Design:

1 1/2" lower right and upper left or center works with most V8's.

Ford Outlet Design:

1 3/4" lower left and 1 1/2" upper right or center works with some Ford OHV V8's. To order, add a "B" to part # suffix, i.e. WR-487-2B.

Flathead Outlet Design:

1932-48 style passenger motors use dual 1-3/4" upper and lower outlets. To order, add a FA to part # suffix, ie WR-487-2FA. 1949-53 style passenger motors use 1-1/4" upper and 1-3/4" lower outlets. To order, add a FB to part # suffix, ie WR-487-2FB.

Note* add \$50.00 for flathead outlets.

Street Rod Duty:

Ample cooling for most street rods. We recommend this radiator for most streetrods with smallblock V8's. This radiator can be used successfully with some mild big blocks.

- Walker 1917-27 and 1932-48 "Cobra" standard street rod radiator use 1.25" thick ultra high efficiency core (2" on 1933-34's.)
- Walker 1928-31 radiators use Walker's 2 3/4" Standard core.

Big Block Duty:

Recommended for street rods towing trailers or ultra high performance or large or altered displacement motors.

- Walker 1917-27 and 1932-48 Super Cobra radiator use 2 3/4" thick ultra high efficiency core.
- Walker 1928-31 use extra heavy duty S-Line (3 3/4") core.
- Street Rod 1935-39 Pickup have large core area for big block duty.

Air Conditioned:

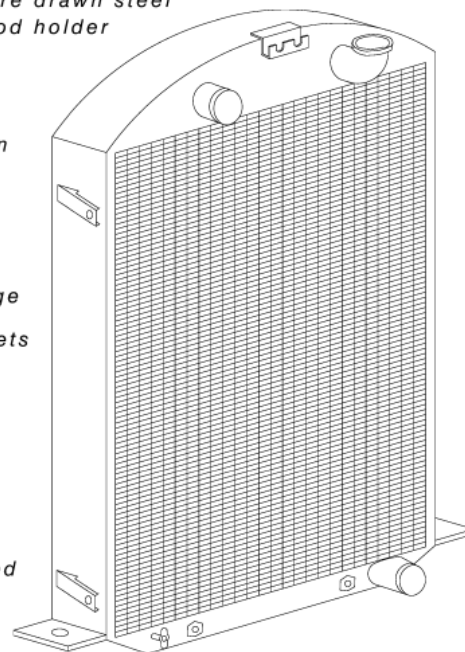

- Air conditioning condensor installed.
- Walker radiators have part numbers beginning with WR.

Pre drawn steel rod holder

One piece deep drawn brass tank (Walker Radiators)

Heavy gauge steel side brackets

Standard grille shell mounting holes pre-stamped

Brass drain cock

Oil cooler for automatics

Radiator Parts

Custom Radiator Caps

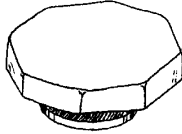

Modern pressure cap. Fits Walker and most pressurized radiators.

7 psi Rated

WRWB-7	Polished brass	20.00	ea
WRWC-7	Chrome plated	25.00	ea

15 psi Rated

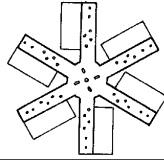

WRWB-15	Polished brass	20.00	ea
WRWC-15	Chrome plated	25.00	ea

Street Rod High Efficiency Flex Fans

Stainless blades on steel hub for maximum air flow with minimum horsepower. Precision balanced.

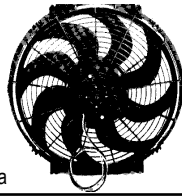

WRAT-15	15" dia	57.50	ea
WRAT-17	17" dia	62.50	ea
WRAT-18	18" dia	62.50	ea

Walker "Max Air" Single Thin Fan

Designed for maximum engine room clearance. Maximum 3 3/4" thick at motor center, 1 3/4" at edge. Kits include mounting brackets, and all necessary installation parts.

WRMA-16-F	Front mount	135.00	ea
-----------	-------------	--------	----

Electric Fan Control Thermostat

WSW-L36-195	185/195 degree	57.50	ea
-------------	----------------	-------	----

Walker "Cyclone" Fan Shrouds

A fan shroud increases radiator air flow and cooling efficiency. Molded high density polyethylene. Impact and heat resistant.

WRWS-70	1928-29 Ford	100.00	ea
WRWS-55A	1930-31 Ford	100.00	ea

WR-346	Straight fittings	15.00	ea
WR-347	45 degree fittings	15.00	ea
WR-348	Hose adaptor fittings	15.00	ea

Radiator Overflow Recovery Tanks

Polished Stainless Steel. One-quart capacity. Fits 1928-48 Walker and most other 1928-48 radiators. Mounting brackets included.

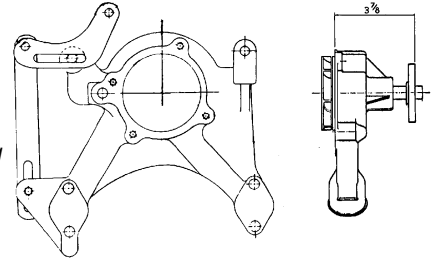

B-8005-13	13"	65.00	ea
B-8005-15	15"	65.00	ea
B-8005-17	17"	65.00	ea
B-8005-19	19"	65.00	ea

Custom Water Pump Housings for Smallblock Chevy V8

Uses 1963-75 Chevy 6 cylinder water pump. Mounts fan 5" higher than stock V8 water pump. Fan is better centered to radiator for better air flow on most cars to 1940. Alternator and air conditioning compressor mount to top of bracket which helps solve some clearance problems with the sides of the hood.

Fully machined aluminum casting. Easy bolt on. Uses factory GM pulleys (not included).
LG-8500-AC Includes brackets for air conditioning 300.00 ea

Radiator to Frame Mounting Kits

1920-27:

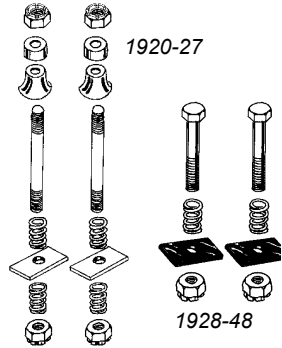

Includes studs, nuts, cotter pins, rubber pads, springs, and radiator shell and apron clamps.

T-3929-AS	1920-25	20.00	ea
T-3929-BS	1926-27	20.00	ea

1928-48:

Includes bolts, springs, nuts, and rubber pads.

B-8130-ES	Plain	7.50	ea
B-8130-SS	Stainless	15.00	ea

Wiring Crossover on Radiator

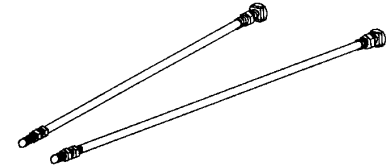

Soldered to original radiator
